

CHANGING PACKAGING NEEDS

Food safety is top of mind for consumers, and suddenly the packaging matters almost as much as the product itself. As you're modifying operations to meet the needs of our new normal, don't forget to consider the packaging solutions needed to support these new plans.

You can take advantage of the grab-and-go strategy by pre-packaging popular items in window boxes, sealable bags and clamshell containers to keep the lines moving and getting people in and out quickly.

Window Bags

Open your self-serve cases back up safely by individually wrapping the products inside. These 5" x 7" window bags have 1.5" side gussets that are the perfect size for individually wrapped donuts or cookies.

Lip and Seal Bags

The 5" x 5" lip and tape bag has a 1.5" secure closure which be resealed several times with no loss of strength. It is ideal for pre-packaging cookies, brownies and pastries.
